CREATIVE

FOR A FILMMAKING AESTHETIC

Creative Director

Cinema Gear

Two Videographers

Drone Camera

10+ min Montage

It's more than just gear. We assign a Creative Director to your wedding whose sole purpose is to listen to your story, learn your style, and hand-craft the experience from start to finish. Your Creative Director is your single point of contact from the first consultation to final delivery. He or she will be onsite the day of the wedding to ensure every run smoothly.

But the gear's great too. The Creative package means pro filmmaking gear wielded by highly-trained senior videographers. This is production-quality

equipment. Your Videography Team will have specialized tools like a Slider, Gimbal and/or Drone for capturing very specific kinds of shots requested.

And the Highlight Montage brings it all home. With a Creative Director, cinema-line gear, and two videographers for the entire day, the ten-minute highlight montage is simply stunning. We use the vows and speeches to build out the unique flow of your story. That way, every Montage edit is personal, impactful, and emotionally-driven.

Specifications

8 hours coverage
Creative Director
Two videographers
Cinema production gear
Up to 4 lavalier mics
Drone for aerials

4K Ultra HD

Change the game. Multicam is a whole different animal. With a multi-cam crew, we can be in two places at once — like splitting up for prep, or one of us filming Cocktail Hour while the other heads off with the Bridal Party. We can also film the same moment from two angles. Want the groom's reaction while the bride comes down the aisle? The only way to do that is with two videographers.

It's like Live TV. In addition to the raw footage, you receive a fully-edited multicam video. We dynamically cut back and forth

between cameras like a TV production. So when the best man cracks a joke in his toast, we have your reaction. It's tight.

Do I need two cameras? That depends on the logistics of your day, your tastes, and your budget. Multicam is great, but it's not required. If you're not sure whether Multicam is best for your wedding, just give us a call or shoot us an email. We'll provide our expert recommendation. Also, be sure to ask us about our 8-hour Multicam option if 5 hours isn't enough.

Should I film prep? Yes, it's the only part of the day the bride & groom don't share together. That makes it twice as fun to revisit. It's also a more intimate curtain call. Rather than start with the hustle & bustle of the ceremony, we get to capture memories with the core team — Mom & Dad; bridesmaids; groomsmen; close family. That's why you want a full day of coverage. We recommend scheduling us about an hour before the dress is on. That gives us time to get bits of hair, makeup, and little bit of groom prep. Upgrade to 10 hrs. for an extra \$200.

It's not just about prep. You might have a wedding day with a lot going on. Ceremony at noon? Then a trolley downtown for photos? There's lots of reasons to film more.

Same style. Just longer. The Standard & Extended packages are single camera, documentary-style, with Basic Raw Footage Cleanup. Not sure which package is best for you? Give us a call or shoot us an email. We can review your timeline and details to recommend the best package for your needs.

4K Ultra HD

Our most popular package.

The key ingredients – the ceremony, intros, speeches, cake cutting, special dances – it's all here. Five hours just about does it. No fat. Just great video.

Start coverage at the ceremony (we arrive an hour early for setup). With five hours, we generally wrap up a half-hour or so after the dance floor opens. This package works best for weddings where the ceremony and reception are at the same location. If you need more than five hours, you can add an extra hour for \$100.

It's documentary style, which means we shy away from artsy, superfluous flourishes. It's all about content. Our goal is to provide you the most thorough and comprehensive document of your day. All our shots are clean, well-composed, steady, and with professional sound.

This package and our Extended Package also include Basic Cleanup, which means a pass of light editing and audio mixing. With our signature style and minimal editing, your video will have all the polish it needs.

Extra Camera

Fully Edited

4K Ultra HD

Everything you need. The average ceremony runs anywhere between twenty minutes and ninety minutes. Depending on the length of your ceremony, we can include bridal prep, post-ceremony photo sessions, or the start of the reception. With three hours, you'll have everything you need, and nothing you don't.

Here's how it goes down. The Vanilla Package includes an extra unmanned camera for the ceremony (\$200 value). This allows us the flexibility to move around and change up our an-

gles in scenarios where we'd normally be locked down.

We get the whole ceremony, straight through to the end. Vows, rings, readings – it's all there. If your venue has rules, we follow them. We stay out of your photographer's way (which is why they love us). And we do all this while getting the best shots, with crisp audio.

Not sure when to start coverage? Give us a call or send us an email and we'll guide you through the process.

UPGRADES

Live Streaming

Stream your event online. This add-on includes a 90-minute stream with 60 minutes of set up. A specialized technician will accompany your videographer and his or her sole responsibility is to set up and monitor your live stream connection.

Starting at
\$700

Drone

4K UHD aerial footage. A licensed drone pilot will be strategically scheduled for a three-hour window during the wedding day. The sole responsibility of the pilot is to capture the most important aerial shots on your list.

**Included in Creative Package*

Starting at
\$700

Montage Edit

A Montage is a 3-5 minute highlight of the day set to music. We use the vows and toasts to build the narrative. The goal is to encapsulate the day into a fast-paced and emotionally impactful video. Longer cuts at ten or more minutes also available.

Starting at
\$1400

Extra Hour • **\$200**
Extra Camera • **\$200**
